Richard Cooper has bookended his winter break with race wins, the Buildbase Suzuki rider victorious in the opening National Superstock 1000 race of the year onboard his GSX-R1000R at Silverstone, in the UK, after dominating the final #BSB race of 2018.

Fast throughout practice and qualifying, Cooper took the chequered flag first in both halves of the two-part race on Saturday, along with a new lap record. He was back on the podium in Sunday's race with a third placed finish, and leaves with the championship lead.

Richard Cooper:

"It was the perfect start to the year to be fair, especially after winning the last race of last year, too.
