---

Due to directives issued by the National Security Council of Belgium, which include the suspension of all outdoor events in the country in light of global health concerns regarding COVID-19 (coronavirus), this year's World RX of Benelux at Spa-Francorchamps on May 16-17 has been re-scheduled.

This decision was made after careful consideration and consultation with the FIA, the Belgian ASN and the local event organizer, as the health and safety of everyone involved remains our priority. The event has been provisionally re-scheduled for October 3-4\*. Further information about the event is available [here](#). \*Subject to FIA approval.
